DEATH ENDS SUFFERNGS

Mrs. Sattle Richards, Widow of Capt Thos. A Richards, Is No More

Mrs. Sallie Richards, aged 71 years peacefully passed over the dark river of death at her home in Stanford on Harvey J. Darst, one of Lincoln Thursday, after a long period of insounty's most substantial and respect-validism, in which she bore her sufficient, passed away at his home fernings with true Christian fortitude. She was the widow of the late Capt. Thomas A. Richards, one of the most romment citizens of this part of Kentucky in his prime. Capt. Richards preceded her to the Great Beyond only three years ago. To them were born three children, only one of whom sur-vives, Miss Bessie Richards, who was with her mother when the end came and who has been as a ministering angel to her during her long illness. Two other children, Miss Jenne Richards and Mrs. John E. Patrick, have been dead a number of years. Miss Jean l'abrok, a daughter of the latter, was also with her grandmother when the end came and like her annt, has been her devoted attendant.

Mrs Richards was the daughter of the late Renjamin Dann, a member of the extensive Garrard county family of that name. She was the last of a large family. She married Capt. Richards at the age of 16 years and thers was a long and happy life to-gether. In early life Mrs. Richards united with the Christian church, and was a faithful attendant upon its services as long as her health would per-

TUESDAYS AND FRIDAYS

Fiscal Court to Take Advantage of Change in Road Law-- More Money Allowed for Road Work, Too

The Lincoln County Fiscal Court, at three days' session early this week, made the tax levy for the ensuing year, allowed a number of claims apportionof the county and bought a traction engine to be added to the road machinery now in use by the county, and which will be used for grading.

Members of the fiscal court say that overseers will be appointed and hands warned out for work on the dirt roads of the county this fall, as was done before the present road law was chang-ed, and as is now permitted under the recent change made in the law by the last legislature. This will enable the men on the dirt roads to pay their taxes by work on the roads. In accordance with the law, the court ordered publication of the delinquent poll and property tax list, which will be done

in an early issue of the 1. J.

The county tax levy of 50 cents on each \$100 worth of property was apportioned among the various funds as follows: 25 cents for roads: 18 cents for general expenditure fund; 1 1-2 cents to take care of the floating debt; l cent to provide a sinking fund for the courthous bonds, 1 1-2 cents for interest on the courthouse honds, 2 1-2 cents for the turnpike bonds sinking fond, 1-2 cent for interest on the turn-

nike bonds The court allowed the sum of \$8,000 for work on the turnpikes of the county and \$8,000 for work on the roads which is an increase of about \$3,000 to the latter work.

The traction engine bought, cost the county \$1.642, and is a J. I. Case engine, for which Tom Peuce, of this city is agent. He heat 11 bilders who sought to sell an engine to the conn-

Kentucky Gentleman 5167

Kentucky Gentleman has been pronounced by competent judges to be one of the greatest young horses in the atate. He is just the right size—15 3-4 hands; weight about 1,150 pcunds. He is almost perfect in conformation and his color is ideal, being a dark chestnut with white hind feet and a star and suip. He has a beautiful mane and tall.

Kentucky Gentleman is especially good in the shoulders, wethers, back and quarrera. He has the best of feet and legs, and to perfectly sound in every way. He is an impressive horse standing still but is more so in motion. Sets himself perfectly and is a true galted horse; never touches himself anywhere, and has exceptional speed at the rack and trot. Last year with very little handling his trainer stepped him in a quarter in :42a 2:48 galt. He has wonderful intelligence and is kind and gentle.

Kentucky Gentleman is a typical Kentucky saddle horse-the kind the whole world leves and admires. His breeding is the very choicest. He is by Chester Peavine 3184, by Rey Peavine 1796, by Rex McDonald 833, by Rex Denmark 840. Dam Flora Carler 8419, by Red Squirrel 53, by Black Squirrel 58, by Black Eagle 74, by King William 67

Percheron Society of America

Voltaire is a handsome Percheron stallion, perfect in conformation and weighs about 1,500 pounds. He has proven himself to be one of the best breeders in the state. His celts show for themselves. Each man thinks his colt is the best.

He has great action for a big horse; can get up and go like a trotting horse. The progressive farmers are breeding to diaft horses more every year. They realize that little, weak teams cannot do the work as it should be done. Lots of our farmers have been ruined by shallow plowing, causing the soil to all wash away. But it was the best that could be done with the teams we had. No successful farmer can afford to psy the price we have to pay now for farm laborers and send them to the field to do a day's work with a small team. So to get the best results you have to have improved machinery and a good big team to pull it with. The only way to do this is to raise big horses and Voltaire is the best big horse in

USE ARNOLD'S BUGGIES

Actual Facts Present Arguments You Cannot Get Around.

We often hear the remark that "Arnold sells a lot of Buggies because he advertises" and we usually have to smile when we hear this because advertising gets credit for so much.

Do you think for a minute this business of ours would be 10 years old, prosperous, well and favorably known all over this country if we did not have the right kind of construction at the right prices.

Don't say no when you are not sure. But say I won't buy a Buggy until I have seen

Arnold's NEW PATENT Double Reach Re-Inforced Gear

and many other improvements on the 1914 buggy.

One thing we want to get into your system: Money spent for Arnold Buggies is well spent.

We Solicit your business and extend an invitation to visit our factory. We solicit a portion of your vehicle Trimming, Painting and Repairing.

The ideal car for a progressive business man; it brings the farm close to town. The car that is worth all you pay for it as a business proposition, with the luxury and pleasure thrown in. The car that gives its owner no regrets for the amount of money he paid for it. The car that is sold in larger numbers than any car in the world. There is a reason for it. Be wise and profit by others' experience. When you want a car, buy a Ford.
